CLIMBING

TYYNY® A BRAND THAT'S EMERGING IN THE RIGHT CONTEXT'

CREATED IN 2018, TYYNY® IS A CONTEXT' GROUP BRAND. THE COMPANY IS BASED IN CHAMBON FEUGEROLLES IN THE LOIRE DÉPARTEMENT AND WAS FOUNDED IN 2000.

TYYNY® benefits from CONTEXT's know-how and experience in the manufacture of products made of technical foam and textiles.

TYYNY® proposes a comprehensive range of protection products and equipment for sports, mountain and leisure professionals.

All TYYNY® products are designed and made in France in the CONTEXT' workshops, specialised in welding and industrial sewing.

OUR VALUES

TYYNY® THE POWER OF NATURE

CREATYVYTY

— Showing the way rather than following in others' footsteps.
With all our energy.

REALYYTY

— Offering you simply the best product at the best price, no more, no less.

REACTYVYTY

— Offering you the best service in record time.
The sky is the limit.

HUMYLYTY

— Placing your satisfaction at the heart of our preoccupations.
Quite simply.

PROTECTION AND LAYOUT OF CLIMBING GYMS.
CLIMB IN COMPLETE SAFETY.

With over 15 years of experience in the climbing industry, TYYNY Climbing is now the leading brand in the design and safety of climbing gyms!
After several years of collaboration, TRYO SPORT and CONTEXT' are combining their expertise under a single brand and with a common motto:
ONLY QUALITY WILL ENDURE.

TYYNY is all about a comprehensive service that closely matches your needs and a range of products designed specifically for the climbing sector, tailored to your requirements and at the best possible pricing conditions.

OUR AMBITION?
Combine industry standards with the best value for money and within controlled timeframes.

OUR SATISFACTION?
Providing the most effective solutions tailored to your requirements and working together to turn your projects into success stories.

[TOPO]
TYYNY CLIMBING

Goals constantly pushed a step further

7C

The drive to always do better

Nearly **850 LANDING** areas in 15 years

7A

A household name

Attuned to federations, clubs and communities

7B

The trust of the leading private gym networks

Close collaboration with leading **French** ACS manufacturers

5C

A forerunner in innovation for landing areas

Over 15 YEARS of experience in the sector

100% made in France!

6A+

[NEW]

OUR COMMITMENT TO ENVIRONMENTAL RESPONSIBILITY

OUR APPROACH

For a number of years now, we have been pursuing an eco-responsible approach: whether in terms of our sourcing, with the selection of French and European suppliers for improved traceability of the origin of our raw materials; or in terms of our industrial waste, through the recovery of our foam residues, which are compacted and incorporated into a second life cycle.

Today, we are striving to achieve even more in order to **limit the environmental footprint of our products.**
To achieve this, we have worked towards setting up a **circular economy** using new recovery processes to **meet your expectations** and the emerging needs of your sectors of activity. TYYNY now draws on new partnerships with industries specialising in foam recycling to offer all our customers **a truly effective waste management solution.** Therefore, we offer to collect our products for replacement and **transport them** to a recycling and recovery centre.

HOW CAN WE TAKE RECYCLING A STEP FURTHER?

Our commitment to this **eco-responsible and environmentally friendly approach stems above all from values that are dear to our entire team.**

As a key stakeholder in today's economic and societal interactions and their evolution, the TYYNY brand is firmly rooted in modernity and aware of the challenges of our century, whether environmental, ethical or human.

The idea was to incorporate this same **recycled foam into our new products,** in accordance with the requirements of the inspection and certification bodies to which all our eco-designed products are sent for testing in order to validate their compliance with the range of standards governing the sports and leisure facilities that we design and build.

Today, **the ecological footprint created by manufacturing recycled foam is 20 times lower than that of manufacturing new foam.**

[Join us and become GRYYN!]

OUR SERVICES

TYYNY®
AT YOUR SERVICE!

More than just providing daily support to help your projects succeed, TYYNY aims to offer you comprehensive assistance through a whole host of services.

THE SALES TEAM

Dedicated and on the move throughout France to provide you with the best possible advice: **The key to a successful project with no unpleasant surprises.**

01

MEASUREMENTS SERVICE
3 FORMATS

ASSISTANCE WITH TAKING MEASUREMENTS
We assist you in taking measurements for your project to ensure that it is carried out successfully.

MEASUREMENTS
We will take care of all the measurements on site.

3D SCANNER
Our specialist partners will travel directly to your premises to carry out a comprehensive scan of your facilities.

02

THE GRYYN® PROGRAMME
We are building a collection network to relieve you of the burden of disposing of your used products and to incorporate them into the best possible recycling networks.

03

TIGHT CONTROL OVER DEADLINES
We strive to improve our production process every day so that we can optimise the control of our delivery times.

04

DELIVERY & INSTALLATION
Our teams of professional fitters can handle the delivery and installation of all our products.
Please do not hesitate to contact us.

05

CARE
To maximise the service life of our products, Tyyny offers a range of cost-effective care and repair solutions.

06

MAINTENANCE
Advice, care, repairs... Tyyny now offers a range of maintenance packages tailored to your needs.

This innovative solution combines a 300 mm or 400 mm thick pad with **SOFTEX®** technical carpet laid freely.
It features fastening strips at the foot of the walls and mat edges at access points, **for a smooth, attractive and highly resistant surface.**

By design, **the SOFTEX® system offers superior durability and perfect surface stability over time.**

It is laid using a specific process, incorporating wall fastening strips to provide **optimal continuity between the wall and the mat**, thus creating a high-quality finish and offering maximum safety for climbers.

Due to the technical nature of the fitting work, fitting by our team is strongly recommended to ensure that the system complies with regulations and delivers optimal performance.

TYYNY®,
THE TOP-OF-THE-RANGE BRAND

In Finnish, TYYNY means “pillow”. But for you, it primarily means

PROTECTION AND OUTFITTING OF YOUR SPORTS AND LEISURE FACILITIES.

But why a bear to embody the brand? Probably because we love their gentle strength.

But above all because we deploy all our energy and the highest level of excellence to offer you the most effective and high-performance protection and outfitting products on the market.

OUR MANTRA?
Guaranteeing you the highest level of safety and quality for your sports and leisure facilities. With TYYNY as pillow, one thing’s for sure: you’ll be able to sleep in peace!
